Oh Lonesome Me - Don Gibson

```
C                         G7
Everybody's going out and having fun
                               C
I'm just a fool for staying home and having none
            C7              F    G7         C
I can't get over how she set me free oh lonesome me

                             G7
A bad mistake I'm making by just hanging round
                              C
I know that I should have some fun and paint the town
            C7              F    G7        C
A lovesick fool is blind and just can't see oh lonesome me

G7                        D7
I'll bet she's not like me she's out and fancy free
                             G7
She's flirtin' with the boys with all her charms
                    D7
But I still love her so and brother don't you know
                            G7
I'd welcome her right back here in my arms

         C                          G7
Well there must be some way I can lose these lonesome blues
                            C
Forget about the past and find somebody new
             C7              F  G7          C
I've thought of everything from A to Z oh lonesome me

        repeat from "I'll bet she's not like me..."

G7           C
Oh lonesome me
```
