james brown 1933-2006

Soul Brother Number One, the Godfather of Soul, the Hardest Working Man in Show Business, - these titles describe just one man. James Brown is arguably the most influential African-American musician in popular music in the past half-century and one of the most dynamic, exhilarating performers of our time.

James Brown, with his impassioned vocals born of gospel and the complex rhythms of his beat, was at the forefront of not one, but two major musical revolutions. In the 1960s he turned R&B into soul and a decade later reinvented his own invention when he turned soul into funk. His mesmerizing onstage performances were unforgettable. The blood curling screams, the flying splits, the dropping to the knee, the one-legged skate made him a star attraction and became his lifetime trademarks, along with the name of his band: James Brown and the Famous Flames.

Over a 30-year period, James Brown amassed an amazing total of 98 entries on Billboard's top 40 R&B singles chart, a record still unsurpassed by any other artist. Seventeen of them reached number one. When the music industry decided to create a Rock 'n' Roll Hall of Fame, Brown was one of the first 10 musicians inducted. He is the recipient of the American Music Awards Award of Merit and a Grammy Lifetime Achievement Award.
