

INTRO: C //// Am //// F //// G ////

C                           Am  
 I'd like to be, under the sea.  
 F                           G

In an octopus's garden in the shade,  
 C                           Am

He'd let us in, knows where we've been.  
 F                           G

In his octopus's garden in the shade,  
 Am

I'd ask my friends to come and see,  
 F                           G

An octopus's garden with me.  
 C                           Am

I'd like to be, under the sea.  
 F                           G                           C

In an octopus's garden in the shade.

C                           Am  
 We would be warm, below the storm.  
 F                           G

In our little hideaway beneath the waves.  
 C                           Am

Resting our head, on the sea bed.  
 F                           G

In an octopus's garden near a cave,  
 Am

We would sing and dance around,  
 F                           G

Because we know we can't be found.  
 C                           Am

I'd like to be, under the sea.  
 F                           G                           C

In an octopus's garden in the shade.

## SOLO

C                           Am  
 We would shout, and swim about.  
 F                           G

The coral that lies beneath the waves

C                           Am                         (lies beneath the ocean waves)  
 Oh, what joy, for every girl and boy.  
 F                           G

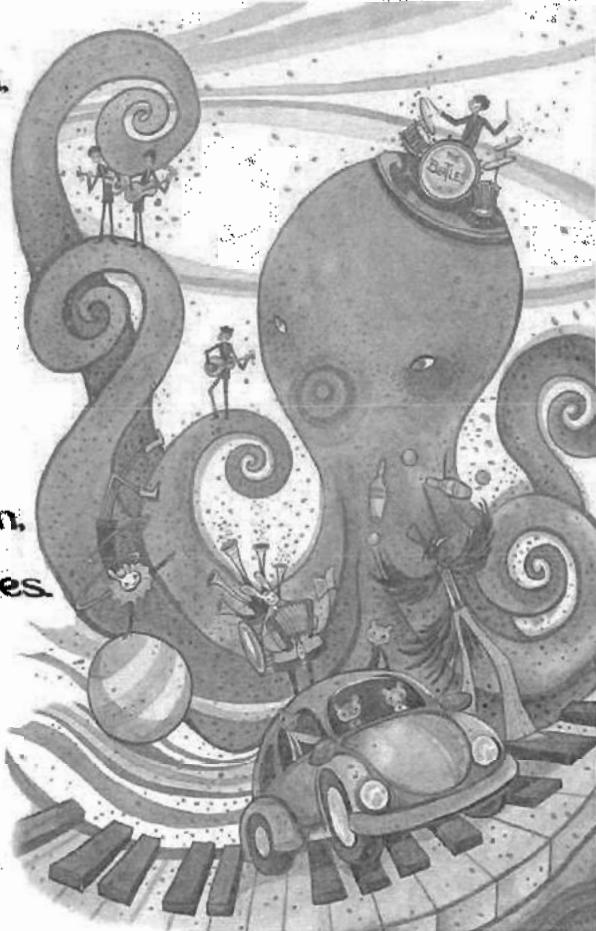

Knowing they're happy and they're safe.

Am                         (happy and they're safe)  
 We would be so happy, you and me.  
 F                           G

No-one there to tell us what to do.

C                           Am  
 I'd like to be, under the sea. In an octopus's garden with you.  
 F                           G                           Am  
 In an octopus's garden with you. In an octopus's garden with you!
