

Santa's Coming Over The Rainbow by John Keawe

Two little keiki's were talking- and I overheard one say  
Boy it's almost Christmas – I can hardly wait for that day  
But I wonder how Santa's gonna get here -when he lives so far away  
The other one said eh no worry – he'll be here on that day

(Chorus)

Santa's coming over the rainbow – Santa's coming over the sea  
Santa's coming over the rainbow – bringing presents for you and me  
Santa's coming over the rainbow – Santa's coming over the see  
Santa's coming over the rainbow – bringing Christmas to Hawaii

I hope I get to see his reindeer – I hope I get to see his sleigh  
I hope that Santa has enough time – to travel all that way  
Hey I told you now not to worry – and listen to what I say  
Santa will never let us down – he'll be here on that day

(Chorus)
